

COMMERCIAL FLOORING SPECIALISTS

Flooring done properly. On site, on time, on budget.

A Nottingham family business since 1981. We supply and install commercial flooring across Nottinghamshire, Derbyshire and Leicestershire — with directly employed fitters, dedicated account management, and trade pricing on every leading manufacturer.

ABOUT US

Forty-plus years. Three showrooms. One family business.

Established in 1981, Carpet Style is a family-run flooring company headquartered in Nottingham. We work with national PLC housebuilders, regional developers, independent care home groups, schools, offices and public sector clients — combining the buying power of a major group with the responsiveness of a local independent.

"We employ our own fitters, hold accounts with every major manufacturer, and run three showrooms across the East Midlands. The combination is unusual — and it's why our clients keep coming back."
